Frontend Development: React.js, Tailwind, Redux, TypeScript, Vite, HTML5, CSS3, Bootstrap, Responsive Web Design

Databases: MySQL, SQL Server, PostgreSQL, MongoDB, Stored Procedures, Query Optimization, Database Design

DevOps & Deployment: Docker, Linux, AWS EC2, cPanel, GitHub Actions, DNS Configuration, SSL Certificates, Production Deployment

Tools & Version Control: Git, GitHub, Postman, VS Code, Composer, NPM

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, MVC Architecture, Database Design, Problem Solving

PROFESSIONAL EXPERIENCE

Web Development Intern (Onsite) April 2026 – July 2026

Creative IT Park | Islamabad, Pakistan

- Rebuilt the Creative IT Park website from Laravel to React.js and Node.js, developing both frontend and backend components from scratch.
- Delivered client-requested features across CMS platforms, enterprise portals, and business websites built with Laravel, React, and Node.js while supporting production systems.
- Designed and developed the OD Sports website and custom CMS, enabling administrators to manage blogs, media, events, and website content through a centralized admin panel.
- Maintained and extended production Laravel applications across SLS, Hello Creative IT Park, internal workflow systems, and other client projects while delivering new backend features and resolving production issues.
- Designed and developed the Perfect Doors website and custom CMS, enabling administrators to manage products, categories, and dynamic website content through an intuitive admin panel.

- Performed production deployments using cPanel, DNS configuration, SSL installation, and live release management.

Web Development Intern (Onsite) *January 2026 – February 2026*

NIBAF – National Institute of Banking and Finance | Islamabad, Pakistan

- Contributed to the PomPak financial literacy platform by implementing backend improvements and feature enhancements under senior developer guidance.
- Tested game levels, identified bugs, and resolved straightforward issues while escalating more complex problems to senior developers.
- Collaborated with senior developers using Laravel, SQL Server, Git, and modern software development practices.

SELECTED PROJECTS

PomPak National Financial Literacy Platform

Laravel | SQL Server

[GitHub](#) | [Live Demo](#)

- Supported backend development for a national financial literacy platform by implementing backend improvements, feature enhancements, and SQL Server–based application workflows.

Creative IT Park Website

React.js | Node.js | Express.js

[GitHub](#) | [Live Demo](#)

- Rebuilt the Creative IT Park website from Laravel to React.js and Node.js, developing responsive frontend pages and backend APIs.

OD Sports Website & CMS

Laravel | MySQL

[GitHub](#) | [Live Demo](#)

- Designed and developed the OD Sports website and custom CMS for managing blogs, media, events, and website content through a centralized admin panel.

Perfect Doors Website & CMS

Laravel | MySQL

[GitHub](#) | [Live Demo](#)

- Designed and developed the Perfect Doors website and custom CMS for managing products, categories, and dynamic website content without code changes.

EDUCATION

BS Computer Science • Air University, Islamabad

Expected Graduation: 2028

PROFESSIONAL CREDENTIALS
