Frontend Development: React.js, Redux, HTML5, CSS3, Bootstrap

Databases: MySQL, SQL Server, PostgreSQL, MongoDB, Stored Procedures, Database Design

DevOps & Deployment: Docker, Linux, AWS EC2, cPanel, DNS Configuration, SSL Certificates, Production Deployment

Tools & Version Control: Git, GitHub, Postman, VS Code

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, SDLC, Problem Solving

PROFESSIONAL EXPERIENCE

Web Development Intern (Onsite) April 2026 – July 2026

Creative IT Park | Islamabad, Pakistan

- Rebuilt the Creative IT Park website from Laravel to React.js and Node.js, developing both frontend and backend components from scratch.
- Implemented client-requested features across multiple Laravel, React.js, and Node.js applications, including enterprise portals, CMS platforms, and business websites, while supporting production systems and independently managing smaller projects.
- Developed a custom CMS for OD Sports, enabling administrators to manage website content, blogs, images, and event-related information through an intuitive admin panel.
- Developed backend features, resolved production issues, and enhanced existing functionality across Sadeeqa Learning System (SLS), Hello Creative IT Park, internal workflow applications, and other client projects.
- Developed the Perfect Doors company website and custom CMS, enabling administrators to manage products and website content.

- Managed production deployments, including cPanel configuration, DNS updates, SSL certificate installation, and live application releases.

Backend Developer Intern (Remote) *December 2025 – January 2026*

NIBAF – National Institute of Banking and Finance | Islamabad, Pakistan

- Worked on the [PomPak](#) financial literacy platform by fixing minor backend issues and implementing small feature updates under senior developer guidance.
- Tested game levels, identified bugs, and resolved straightforward issues while escalating more complex problems to senior developers.
- Worked with Laravel, SQL Server, and senior developers while following collaborative software development practices.

SELECTED PROJECTS

Creative IT Park Website

React.js | Node.js | Express.js

[GitHub](#) | [Live Demo](#)

- Rebuilt the company website from Laravel to React.js and Node.js, developing responsive frontend pages and backend APIs.

OD Sports

Laravel | MySQL

[GitHub](#) | [Live Demo](#)

- Developed a custom CMS enabling administrators to manage blogs, media, events, and website content through a centralized admin panel.

Perfect Doors Website & CMS

Laravel | MySQL

[GitHub](#) | [Live Demo](#)

- Built a business website with a custom CMS for managing products and dynamic website content without code changes.

EDUCATION

BS Computer Science • Air University, Islamabad

Expected Graduation: 2028

PROFESSIONAL CREDENTIALS
